

# MANAGED IT SERVICES

## ABOUT US

Since 2018, Vine has provided technology services and consulting to the federal government. We have always been committed to impacting the community around us. Therefore, in 2022 our core values (growth, family, and service) led us to leverage our wealth of experience to offer technology services to the non-profit community. We believe in providing transformational technology services to organizations as they grow their mission capacity and impact.

## CORE SERVICES

TECHNOLOGY CONSULTING

CYBER SECURITY

TECHNICAL SUPPORT (24/7)

NETWORK MONITORING & MANAGEMENT

## WHY VINE

Most technology companies provide tech-centric services, which means they are only focused on technology.

We provide mission-centric Managed IT Services (MSP) and consulting. We take the time to understand your organization and your mission, then work with you to provide technology services that enable you to grow your mission impact.

Transforming People, Business, and Technology

# MANAGED IT SERVICES

## OUR VALUE

More time to focus on your mission and communities in need.

Peace of mind in knowing your organization is secure and supported.

Build capacity and grow with critical technical resources and support.

Secure your organization from cyber threats.

## WHAT OUR CUSTOMERS ARE SAYING

“Quickly became part of The 3rd’s network...understand our needs...moves past transactional to supportive.”

— Laura Bacon, Founder & CEO, The 3rd

“We are very excited to be heading in the right direction with technology.”

— Manager, Non-Profit Customer
